ANGE BUHENDWA

IT Student

Junior Web developer

PROFILE

Hello, I'm Ange BUHENDWA, currently pursuing a bachelor degree in Information Technology. My tech journey started in high school, exploring electronics and self-teaching web development.

As a junior web developer, I'm proficient in HTML/CSS, PHP, and JavaScript. I'm currently learning Node.js and React to expand my full-stack development skills.

My passion lies in software development and cybersecurity. I believe in the synergy between hardware and software to build robust systems. Excited about challenges, I aim to make a mark in software, cybersecurity, and beyond during my studies in Network and Communication Systems
